

Free RADAN Designer

For all RADAN 3D customers with an active Software Maintenance Agreement (SMA)

Why switch to RADAN Designer?

New with the 2020.1 release, RADAN Designer forms a pivotal part of our CAD CAM solution, preparing parts for bending, nesting and cutting. From model design to part repair & modification, RADAN Designer is the ultimate CAD solution for taking geometry through to manufacture.

Your RADAN Designer Offer

All RADAN 3D customers with an active SMA are eligible for a free of charge **RADAN Designer package worth £2,000** with immediate effect. Completion of the two days RADAN Designer training course is prerequisite for this offer. This informative course is essential for every new RADAN Designer user, covering the following topics:

- 3D direct modelling
- Model, import and repair
- Creation of sheet metal parts from wireframe
- Corner preparation, split faces
- Unfolding including bend allowances
- System settings
- Adding and editing bends & flanges
- 2D dimensioned drawings

What about my RADAN 3D licence(s)?

There will be no change to your current RADAN 3D software, you will be able to continue using your licence(s) as normal and benefit from technical support in the same manner. However, there will be no further updates or development to this product.

*The course is taught at our Chippenham and Wakefield offices.
